

CTM POTTERS SUPPLIES

SPEC SHEET

GLAZES

G4 – Low Sol Transparent

Type of product: Glossy Transparent
Main uses: Earthenware

Physical & Chemical Properties

Applications: Hand dipping / Spraying
Composition: Lead, Borosilicate glass
Appearance: Powder / Aqueous suspension
Odour: None
Solubility: Insoluble in water
Specific Gravity: 2.5 – 3.0
Thermal Expansion: 0.318 to 0.332 @ 500°C
Particle Size: 58% to 62% less than 10 microns
Vapour Pressure: N/A
Flash Point: N/A
Testing: Flow and Fusion at 1060°C
